

NACO CJK Corporate Name References

Sponsored by
Committee on Technical Processing, CEAL
CJK NACO Project, PCC

Presented by
Jessalyn Zoom
Cooperative Programs Section, COIN, LC
February 23, 2012

Important reminders:

1. Today's session will cover 410 references, next session will cover 411 conference references and 5XX name change situations. Please make a note the next session will be held on March 8, same time. Watch for the announcement for the registration of next session.
2. All the rules and examples we will be dealing with today are under the principle of AACR2. This session does not touch on RDA: Resource Description Access, the future upcoming cataloging instruction.
3. Not all examples discussed here are live examples from the database although most of them are. Don't be surprised if you can not find the exact record in OCLC.

 - 110 1# Corporate body entered subordinately
 - 111 2# Conference

 - **410 2# Reference entered directly**
 - 410 1# Reference entered under jurisdiction**
 - 411 2# Conference direct entry**

21.1B1

Some corporate bodies are subordinate to other bodies (e.g., the Peabody Museum of Natural History is subordinate to Yale University; the Annual General Meeting is subordinate to the Canadian Library Association).

Consider ad hoc events (such as athletic contests, exhibitions, expeditions, fairs, and festivals) and vessels (e.g., ships and spacecraft) to be corporate bodies.

Overview of Corporate Heading Entry Rules

AACR2 24.1 &2

- Choose commonly identified name from items issued by the body in its language, if not, from reference sources
- If variant forms in items issued by the body
 - Use form on chief source
- If variant forms on chief source, choose in the prescribed order
 - Name presented formally
 - Predominant form of the name
- If variant forms in different publications
 - Choose predominant name

Corporate Heading Subordinate Entry Rules

AACR2 24.1,
24.12 -24.13, 24.17-24.18

- Non-government bodies
 - Subordinate entry (6 types)
 - Direct and indirect subheading
- Government bodies
 - Subordinate entry (11 types)
 - Direct and indirect subheading

AACR2 26.3A7-

Refer from different forms of [heading](#) under which a [corporate body](#) might reasonably be sought.

Basic rule is to give entry to variant forms, especially if you have reason to think they might be searched.

26.1 Make a *see* reference from a form of the name of a person or a corporate body or title of a work that might reasonably be sought to the form that has been chosen as a name or uniform title heading, or as a title entry.

26.3 Refer from a name used by a body, or found in reference sources, that is significantly different from that used in the heading for that body.

Constructing References

LCRI26.3

- Trace a reference from variant forms of entry that apply to the heading
- Do not trace reference that would normalize the same as the heading

110 2# Keiō Gijuku Daigaku

Not 410 2# Keio Gijuku Daigaku

LCRI 26.3

- Generally, trace a reference from variant forms of entry that apply to the name chosen for the heading.
- Refer from a name used by a body, or found in [reference sources](#), that is significantly different from that used in the [heading](#) for that body.
- * However, do not trace a reference that would normalize to the same form as the heading or see reference on the same record or to the same form as a heading on another record.

Constructing References : English Form

LCRI26.3

- Generally, trace one reference from each variant
- However, if the name chosen for the heading is not in English and the name is available in English, trace ref. from English form

110 2# Beijing dian ying xue yuan. Dong hua xue yuan

410 2# Animation School of Beijing Film Academy

AND 410 2# Beijing dian ying xue yuan. Animation School

LCRI 26.3

- For variant forms of a name, generally, trace only one reference from each variant, normally, constructing it in the form in which it would be constructed if chosen as the heading. If, however, the name chosen for the heading is not in English and the name occurs in an English form, also **trace references from the variant forms of entry that apply to the English form**. (If, in such a case, there are multiple English forms, choose only one of the English forms to use in tracing references from the different forms of entry.)

Cross References: Initialism and Acronym

LCRI26.3A4

- Make a reference from the initialism, following capitalization and punctuation
110 2# Lee Kuan Yew School of Public Policy
410 2# LKYSPP
- Make a reference from the form without periods when the form includes periods; **but not** vice versa
110 2# Lee Kuan Yew School of Public Policy
If 410 2# L.K.Y.S.P.P.
Then 410 2# LKYSPP

LCRI26.3A4-

When a heading or a reference consists of or contains an initialism or acronym, follow the usage of the body with respect to the capitalization of the initialism (all capital letters or not) and the punctuation of it (use of periods between the letters or not).

When the initialism occurs within the first five words of the heading or reference, provide cross references according to the following guidelines:

- a) Make references from all forms actually found that include variations in the punctuation of the initialism.
- b) When the only form found includes periods between the letters of the initialism, also make a reference from the form without periods.
- c) When the only form found is without periods between the letters, do not make up a reference from the form with periods inserted, since publications as well as reference sources show that a general abandonment of periods between corporate initials has already taken place and shows signs of becoming obsolete. Since, however, the criterion of usage is not practicable with existing records, do not delete these references already made, whether in evaluated or unevaluated reference structures.

When, during evaluation of references currently traced on authority records, the cataloger finds [MARC 21 field 664 \(explanatory references\)](#) from initialisms/acronyms, convert them to simple see references in the form provided above.

Cross References: Initialism and Acronym

LCRI26.1

 - 110 2# International Federation of Library Associations and Institutions
 - 410 2# Guo ji tu shu guan xie hui lian he hui
 - 410 2# Kokusai Toshokan Renmei

AACR2 24.3A1-

If the name appears in different languages, use the form in the official language of the body.

If there is more than one official language and one of these is English, use the English form.

If English is not one of the official languages or if the official language is not known, use the form in the language used predominantly in [items](#) issued by the body.

In case of doubt, use the English, French, German, Spanish, or Russian form, in this order of preference. If there is no form in any of these languages, use the form in the language that comes first in English alphabetic order. Refer from form(s) in other languages.

24.3B

If the name of an international body appears in English on [items](#) issued by it, use the English form. In other cases, follow the instructions in [24.3A](#).

Note: Code provisional if the official language is not available.

Government body in Hong Kong (memo on Aug. 15. 2002 from former CPSO):

Because there is uncertainty about English remaining an official language, all government bodies of Hong Kong (China) will be established provisionally (Auth status 008/33 = value c). If the item being cataloged shows the government body's name in Chinese only, establish the body in Chinese and code the name provisional. If the item shows the government body's name in English, establish the body in English and code provisional.

The provisional level coding doesn't apply for non-government body.

AACR2 24.4C5

1XX - Add the name of an institution instead of the local place name if the institution's name is commonly associated with the name of the body. Give the name of the institution in the form and language used for it as a heading.
HOWEVER,

LCRI 24.4C5

When adding the name of a higher or related corporate body to a corporate name, give the name of the body in the form and language on which the heading for the body is based (not necessarily the catalog-entry form for the institution). Use in the qualifier the body's current name.

24.18 Type 2

- For non-gov bodies Types 2-5; gov bodies Type 2
 - A direct entry cross-reference is required...
 - **IF** the name appears **without** parent body on the chief source of its own publication
 - Generally qualify with the parent body (authorized form not required) for non-gov body; with jurisdiction for gov body

NOTE: This one gets missed A LOT. Mostly because of all the conditions.
Authorized form not necessary for parent body qualifier.

Change of Geographic Place Name Qualifier

LCRI24.4C4

- Change an established heading with an appropriate qualifier, when
 - The name of geographic qualifier changes, or
 - The corporate body moves to another location

- Code the former heading form as previously valid AACR2 form

LCRI 24.4C4 - Change of name of jurisdiction or locality

If a corporate body is qualified by a geographic name (place or jurisdiction), use the heading for the current geographic entity as the qualifier (or the heading for the latest geographic name in use during the lifetime of the body if the corporate body no longer exists). Change an established heading whenever the existing qualifier becomes inappropriate (as when the geographic name changes or the corporate body moves from one locale to another).

Good Cataloging Practice

- Search before adding a reference to avoid conflict
- Provide references following instructions - (AACR2, LCRI, DCM Z1, etc.)
