**E-Serials Module and Integrating Resources Cataloging Manual Revision Task Groups**

The SCT is finalizing two task groups, one to review the integrating resources manual (Appendix B of the *BIBCO Participants' Manual* and CONSER Cataloging Manual Module 35) and one to revise and update the e-serials module in the CONSER Cataloging Manual (Module 31). The former group will harmonize Appendix B/Module 35 with the recently updated SCCTP Integrating Resources Workshop materials, providing a revised document by ALA Annual. The latter group will review and update Module 31 as needed, with a completion date yet to be determined.

**RDA Training Materials**

The SCT is working with LC Coop to provide access to RDA training documentation. When ready, the documents will be available on the PCC website.

Respectfully submitted,
