- Explain how to get help
- Answer questions

Cataloger's Desktop: Search & Advanced Search 2

Search

Cataloger's Desktop: Search & Advanced Search 3

Using Facets

The screenshot shows the 'Using Facets' section of the Cataloger's Desktop interface. It displays search results for 'Title Proper' with a list of facets on the left and a list of results on the right. The facets include 'Publication Information & Access', 'Title Proper', 'Label Title Proper', and 'Parallel Title Proper'. The results list includes items like 'Publication Information & Access' and 'Title Proper' with their respective dates and descriptions.

Results

The screenshot shows the 'Results' section of the Cataloger's Desktop interface. It displays detailed information for a specific result, '2.3.7.1 Scope'. The left sidebar shows a navigation tree with various categories like '2.3.7.1 Scope', '2.3.7.2 Sources of Information', and '2.3.7.3 Recording Earlier Titles Proper'. The main content area provides a detailed description of the 'Scope' facet, including an example of a 'Title Proper' and 'Label Title Proper'.

Advanced Search

The screenshot shows the 'Advanced Search' form in the Cataloger's Desktop interface. It includes fields for 'Classification number assignment', 'Subject heading assignment', and 'Search a discussion list'. There are also dropdown menus for 'Find a MARC tag' and 'Find a MARC code'. A 'Find resources to support a task' field is at the bottom.
